Mr. Tim Sheehan

Goshen Enterprises, Inc.

P. O. Box 20489

Sedona AZ 86341

Dear Tim:

Too often when we purchase a product and it performs outstandingly, we simply congratulate our judgment and carry on.

In this case I cannot do that, because your product is so innovative and results oriented. This is "the solution" to accurate target acquisition and contact. Your product will create more excellent shooters than any other device I've ever heard of, seen or experienced.

As you know, I started with the .45 semi-auto in the Army during W.W.II, and continued to use it law enforcement and competition, on and off, for 40 years. The "on and off" was because my ability to shoot it successfully varied from time to time—mostly in direct proportion to the number of rounds fired in a given month.

Until I used your sight system, I believed I would always be a "sometime" .45 shooter. NO MORE!! For the first time in my life, I can see and HOLD and FOLLOW a target time after time. Actually, I never lose the picture.

Thank you for giving me back my .45!

Sincerely,

Kenneth A. Johns, Judge, Ret.

KAJ:ds P.S. I've almost quit loaning it to .45 haters—they are running me out of ammo!
